

Images of RS17 (Potato-scraping) residues

used in Blind Test 1

The images published in this pdf are those that were used in the testing portion of the experiment reported in Monnier et al. 2012, *J. Arch. Sci.* For questions, please contact Gilliane Monnier at monni003@umn.edu.

Naming conventions: 'RS' = Residue Study; 'D' = Dorsal side; 'V' = Ventral side; 'a', 'b', etc. = residue number.

For example, "3Db" refers to tool RS3, residue "b" on the dorsal surface.
