

Images of RS4 (Bone-scraping) residues  
using Leica MZ16 and MZFLIII stereomicroscopes; some are extended depth of  
focus

The key to the images is at the beginning of the document.

The images published in this pdf are those that were used in the training portion of the experiment reported in Monnier et al. 2012, *J. Arch. Sci.* For questions, please contact Gilliane Monnier at [monni003@umn.edu](mailto:monni003@umn.edu).

Naming conventions: 'RS' = Residue Study; 'D' = Dorsal side; 'V' = Ventral side; 'a', 'b', etc. = residue label; '25', '50', '115' = magnification used
